Offre N°: SERV231108DT

Réinstallation système WA18922 upgradé sur presse DCM 8GV site d'ABLIS

Poste	Quantité	Description	Prix unitaire
1	1	The cost for installation, commissioning and training includes 10 day(s) for installation (2 service engineers, 5 days each) 2 day(s) for set-up of system 3 day(s) for optimization during production and production stand-by 3 day(s) for training of operators and maintenance personnel in total a period of 15 man-day(s) (max. 10 hours each) on site, plus 2 journeys to and from the site as well as the daily trips to and from the hotel to the plant, hotel accommodation, travel and daily expenses. Service calls will take place on weekdays (Monday - Saturday; except Sunday and bank holidays and / or night shift). In order to carry out the work required in the indicated time it is necessary that the necessary space at the machine for the installation of the system is prepared. Furthermore it is necessary that supporting tools (e.g. lifting devices) incl. necessary operators are at BST eltromat's disposal for the installation of the BST eltromat components. Moreover it is required that the necessary cable trays are installed. Any additional costs which have not been caused by BST eltromat (for example waiting times due to a machine unavailable for the BST eltromat activities) will be invoiced according to the actual costs incurred on the basis of our current service rates. The supply of electrical and mechanical installation parts necessary for the installation is not included in the range of supply and delivery for the installation and commissioning. The a/m system incl. The prices corresponds to the following machine application: machine type: DCM shaftless rotogravur machine No.: ... 1 unwinder 1 pulling station (infeed) 8 Printing units	

length and side register controlled,
length register adjustment: cylinder adjustment,
side register adjustment: cylinder adjustment)
1 pulling station (outfeed)
