old optic head 3KAFK257501-200053655 // New optic head: 3KAFK257501AT-200045296 : ORIGINAL ISSUE: ZOOM PROBLEM
 AFTER installation of new optic, the square of the map which is displaying the position of the matrix camera was not visible and the movement of traverse camera is very strange. Camera is going limit switches
 REINSTALLATION of old optic head strange behavior describe on the top desappear.
 REINSTALLATION of new optic head, but exchanged hitachi camera and WSC board. EVERYTHING work correctly.
 NEW problem appears: BUS communication between our camera and FLEXOtecnica.- only way to make it working back reinstall old backup (prepared HDD)
 to make the communication work, press machine must be switch off
